

April 23, 2020

Dear Friends,

Today is Pope Francis' feast day (St. George) and we are asking this dragon-slayer to watch over our Holy Father and to wipe out this little virus which is wreaking so much havoc in our world. Since our whole house testing the other day we have only received a few results, but we wanted to share them with you. Three Residents have tested positive; one was already on the dedicated unit and the other two have moved there. Two staff members have also tested positive and will remain off work according to government guidelines. The clinic has told us that there are a number of negatives, but they continue to receive the results of the other tests and will keep us informed as they come in.

We thank you for your continued prayers and support for our Home. Our front vestibule is filled each day with donations and so many of you are reaching out to us in all sorts of ways. We can only ask God to bless you and yours and to keep you safe and healthy in the days and weeks ahead.

God bless,

Sr. Julie, lsp
