

April 25, 2020

Dear Friends,

The results of our whole house testing continue to come to us in batches, and we want to continue to keep the information posted here up to date. Since I last wrote on April 23 we have received 11 negative results and 13 positive results. The negative results are mixed among Residents, Sisters and staff, while the positive results are all among Residents.

Once again, we thank you for your continued support, both material and spiritual. On this feast of St. Mark, we ask him to help us all to be evangelists in our own way, bringing the good news of Jesus to the world.

God bless,

Sr. Julie, lsp
