

May 12, 2020

Hello everyone,

Yesterday's letter, which was mistakenly dated for today, informed you of the first batch of test results received from our employee testing last weekend. During the course of the day we received 50 more results, 8 of which were positive. As always, the standard precautions are being taken for employee return to work status.

We also bid farewell to one of our eldest Residents yesterday, who left us peacefully in the afternoon. As we once again express our gratitude to our staff for their devoted care of each Resident, we are also grateful to our neighbors, who have, in the past few days, put new signs up in our yard expressing their support of them and continue to provide meals for them each day.

We wish you blessings on this beautiful day!

Sr. Julie, lsp
