

July 10, 2020

Hello everyone,

As our State and city continue their reopening progress, we still find ourselves in our cycle of weekly testing here at our Home. Last week we had a Resident test positive; this week it is a staff member who has tested positive. She will be out for the required period of time for self-isolation and hopefully be back to work just after that!

By our situation here, and by all that we see on the news, we know that the coronavirus isn't going down quietly. With vacation time underway we are counseling staff on making prudent choices and working to track who may need to quarantine themselves after returning from a trip. We so long for our Residents to be able to resume their normal activities and be more socially interactive.

Thank you for your prayers for all of us, and be assured of our prayers for you. Enjoy the little break in the heat this weekend!

God bless,

Sr. Julie, lsp
