

October 12, 2020

Hello everyone,

Following up on our letter from this weekend regarding the positive test result among our staff, we wanted to inform you of the measures that are being taken here at the Home. Under the guidance of the city health department we are suspending communal dining and participation in the Mass for this week. If our subsequent weekly testing is clear, we will be able to resume these activities next week.

Our Residents are once again showing their courage and resilience in the face of this new change in routine.

“You have to roll with the punches,” one said.

“That’s good; well it’s not good, but we have to do it,” said another.

These were some of the comments heard when they were informed of the situation. May we have the same good spirit as they do!

Wishing blessings for all of you, please know of our gratitude for your friendship and help.

God bless,

Sr. Julie, lsp
