

May 12, 2020

Hello everyone,

Since my last letter, a lot has happened here at St. Mary's. We had the testing done for our staff on Friday and Saturday and the results are already starting to come in. Out of 80 results received, 4 are positive. Those employees have been notified and will be off of work for the prescribed 10 days.

Thankfully, we have seen no new cases of the virus among our Residents here at home, but one who is in the hospital has tested positive while there.

In this month of Our Lady, we ask her to continue to watch over our Home and all those connected to it. We can't say enough how grateful we are to you and to our employees who come each day to help us to care for our Residents. Jeanne Jugan knew well that "it takes a village" to care for the elderly, and we have the blessing of seeing that unfold each day.

God bless,

Sr. Julie, lsp
