

July 24, 2020

Hello everyone,

This update letter gives me the chance to share with you our joy that most of our Residents are now back to eating in the dining room, rather than having to stay in their rooms! This comes after over 4 months of tray service. The Residents are so happy to see each other, even from a distance, and we are so happy to see them out and about. One unit of Residents, whose dining room is much smaller, are still eating in their rooms, since the proper social distancing and other precautions cannot be fulfilled in that space. There is the possibility now for small group activities to be done outside, and family visits are continuing out in the back yard.

Of course, this isn't a full "liberation", but it is progress! We all know that the coronavirus hasn't gone away, so we are still doing our weekly testing and taking the necessary precautions in the care of the Residents. We currently have no positive cases among staff or Residents.

We hope to be able to send more good news soon. Be assured of our continued prayers for you and our gratitude for all of your care and support.

God bless,

Sr. Julie, lsp
