

December 30, 2020

Hello everyone,

At the end of this remarkable year, we are happy to have plenty of good news to share with you!

We pray that you and your families are enjoying these days of festivity and relaxation. Here at our Home we had the best celebration of Christmas possible, including a visit from Santa, his elves and even a reindeer to deliver Resident gifts!

This week we learned when we will be receiving the coronavirus vaccine. Walgreen's will be making three visits to our home: January 15, February 12 and March 12. Along with the other nursing homes in the city of Chicago, we will receive the Moderna vaccine. This news appears as a light at the end of the tunnel of the coronavirus journey. As you know, preparatory work is already underway and will continue in the next two weeks. Thankfully, this past week we once again had no positive results from our testing!

A grant given to our Home has enabled us to purchase a large number of new mattresses for the Residents' rooms, as well as many other supplies designed to bring the Residents greater comfort, such as towel warmers, specialty wheelchair, etc. We are, as always, very grateful to the foundation who gave us this helpful gift!

With wishes for a happy and healthy New Year, I'll close with Tiny Tim's line from "A Christmas Carol":
"May God bless us every one!"

Gratefully,
Sr. Julie, lsp
